GENERAL INFORMATION

Product prices listed in this document are the list prices for each grade effective 1 July 2019.

All products and services are supplied in accordance with the "Shell Marine – Sales of Lubricants General Terms and Conditions".

For delivery lead times, please refer to the Listing of ports on page 19. As lead times may change, please refer to the Port Services Guide at www.shell.com/marine/psg for the latest version.

HEALTH, SAFETY, SECURITY AND ENVIRONMENT (HSSE)

Shell Marine¹ is committed to

- pursuing the goal of no harm to people
- protecting the environment
- using materials and energy efficiently to provide our products and services
- developing energy resources, products and services consistent with these aims
- publicly reporting on our performance
- playing a leading role in promoting best practice in our industries
- managing health, safety, security and environmental (HSSE) matters as any other critical business activity
- promoting a culture in which all Shell employees share this commitment.

The lubricants, products and services in this price list have all been manufactured and distributed in accordance with this policy. When they are used and handled in accordance with the product data sheets (PDS) and material safety data sheets (MSDS), they will present no material risk to health, safety or the environment.

Copies of these data sheets are available at www.epc.shell.com or from your local Shell Marine representative.

ORDERING PROCEDURE

Please note the minimum delivery lead time required when placing an order. Timing details are available under the Listing of ports on Page 19 and in the latest "Port services guide" at www.shell.com/marine/psg. Orders are to be sent to our International Customer Service Centre – contact information on Page 29. Urgent orders to be placed by telephone only. Please include the following information when placing an order:

1. Full name of customer
2. Account number and full name of company to be invoiced (if different from the above)
3. Full name of vessel (owner/operator)
4. Port of supply
5. Vessel's ETA and ETD
6. Requested date of delivery
7. Local agent name and contact details at delivery point
8. Products, packages and quantities required
9. Method of delivery (e.g., barge, truck, packed).

¹Shell Marine collectively refers to the companies of the Shell group engaged in the marine business including, without limitation, Shell Marine AS, Shell Marine (US) Company and Shell Marine Singapore.

²Contracted customers means customers contracted to Shell Marine for international supply and delivery of marine lubricants.

PRICES

Prices listed in this document are prices for each grade and pack, and are established in US dollars per 100 litres, except for greases, which are established in US dollars per 100 kilograms.

The total delivered prices of Shell Marine Lubricants, to be paid by Shell Marine contracted customers², consist of different elements, including

- the product price as specified in this price list
- the port price differential (charge that applies to deliveries in ports, which will be charged in full and in addition to the product price)
- any applicable surcharges set out in this document or as advised by your local Shell Marine representative (e.g., barge surcharge, overtime surcharge or small order surcharge).

DUTIES, TAXES AND CUSTOMS

Where local regulations require duties, taxes or statutory charges to be paid, these will be for the customer's account and may be subject to change without prior notice. Shell Marine cannot guarantee that these represent current duties, taxes or charges at the time of any specific delivery.

SURCHARGES

The following surcharges may be applicable:

- **Small order surcharge**
A small order surcharge of 200 US dollars will be applicable on bulk orders below 4,000 litres, or on packed orders below 800 litres. The small order surcharge applies to the total volume of the order.
- **Left onboard surcharge**
A left onboard surcharge of 300 US dollars will be applied per order when an ordered volume exceeds what has been delivered.
- **Order cancellation surcharge**
An order cancellation surcharge of 300 US dollars per order will be applied to orders that are cancelled after the product has been loaded for delivery.
- **Return order surcharge**
A return order surcharge of 500 US dollars per order will be applied in the event that the product is returned after it has been accepted.
- **Urgent order surcharge**
An urgent order surcharge of 200 US dollars per order will be applied when a delivery is required sooner than the standard working day period

■ **Overtime surcharge**

An overtime surcharge (varies from country to country) will be applied to recover costs that are incurred owing to deliveries being made outside working hours.

■ **Demurrage surcharge**

A demurrage surcharge (varies from country to country) will be applied to recover costs that are incurred owing to delays from a customer's vessel.

For more information on surcharges, please contact your Shell Marine representative or international marine customer operations specialist (COS).

TECHNICAL SERVICE SOLUTIONS

Integrated programmes optimised to meet your needs

SHELL LUBEANALYST³

Shell LubeAnalyst is an oil condition monitoring service that helps to ensure that your equipment and lubricants are in optimum working order by identifying potential oil or equipment failures before they become critical. This service is designed to help save money and time on maintenance.

The Shell LubeAnalyst service comprises

- a comprehensive sampling plan for each vessel
- a recommendation for the most appropriate test suite for each piece of equipment
- advice on sampling frequency and how to take a representative sample of used oil.

There are three Shell LubeAnalyst test ranges:

1. Test – cost-effective, essential condition monitoring for all equipment
2. Check – additional tests for equipment with a medium impact for failure
3. Check Plus – enhanced test sequences and advanced diagnosis for equipment critical to the safe operation of your vessel.

Shell LubeAnalyst refill kits can be ordered through our customer service centre and will be delivered to the address⁴ provided on placing the order. Shell LubeAnalyst refill kits can also be delivered as a part of lubricants order in selected ports in China, Hong Kong, Singapore, the UK and Germany.

Please contact your local Shell Marine representative if you would like more information on our Shell LubeAnalyst service.

SHELL LUBEMONITOR

The Shell LubeMonitor service is designed to monitor two- and four-stroke marine engine performance. It includes access to Shell tools and advice to help you strike and maintain an acceptable balance between oil costs and maintenance expenses.

³Formerly known as Shell Rapid Lubricants Analysis

⁴Shell will not cover any cost incurred by duty, tax or agent handling.

The programme includes

- sweep tests – recommended by equipment manufacturers when changing the fuel or load
- feed rate optimisation – finding the best balance between wear rates and oil consumption
- cylinder condition monitoring – health check
- four-stroke monitoring and oil life extension and consumption optimisation.

ONBOARD TEST SOLUTIONS

Shell Onboard Test Solutions can rapidly test several important parameters of lubricating oil performance:

- water in oil
- insoluble material
- ferrous and nonferrous metal wear
- total base number (TBN) or reserve alkalinity of engine oil
- viscosity
- salt-water contamination.

Shell Onboard Test Solutions can test and monitor oil at any time.

Although the results are not as accurate as those obtained from a laboratory, they help to confirm if the oils in use are in good condition, which helps to maintain your equipment's protection.

There are three test kits available:

1. Shell Onboard Plus (Part No. 700000078)
2. Shell Onboard Ferrous Wear Meter (Part No. 700001543)
3. Shell Onboard Cold Corrosion Test Kit. (Part No. 700000077)

To enquire about pricing for Shell Onboard Test Solutions, please contact your local Shell Marine representative and clearly mention the part number.

Shell does not undertake the resupply of reagents for onboard test kits.

Please order the consumables or reagents you require from Wilhelmsen Ship Services by visiting wssproducts.wilhelmsen.com/marine-chemicals/test-kits-and-reagents/oil-test-kit-spares-and-consumables.

Test kit	Part No.	Content
Shell Onboard Ferrous Wear Meter	735758	Ferrous wear meter test tubes, 500 pieces Sampling pipettes, 500 pieces
Shell Onboard Cold Corrosion	735744	Reagent 1, 2 x 250 ml Reagent 2, 1 x 250 ml Reagent 3, 1 x 250 ml Bottle dropper caps, 3 pieces Vials (test tubes), 100 pieces 1-ml syringe, 50 pieces
Shell Onboard Plus	632406 773156	Total base number reagent pack for 50 tests Water in oil replacement pack for 50 tests

GENERAL INFORMATION

ADVICE, COACHING AND EXPERTISE

Shell LubeAdvisor provides a global team of field-based engineers for on-site support, including lubrication surveys, vessel assessments and in-depth technical and application support. This support is also available by phone and email.

Shell LubeCoach is a customised training programme designed to give your employees the knowledge they need to make informed decisions that result in longer lubricant and component life. Experts with substantial seagoing experience deliver this programme. The workshop-based training provides practical insight into best practices distilled from the Shell global network.

Shell LubeExpert is our specialist consulting, troubleshooting and research and development service. Our customer-facing professionals can work with you on critical applications and challenging lubrication problems to ensure your equipment runs smoothly.
